# Intermediate Collision Investigation October 23 - 27, 2017

Automobile crashes cost America each year; 100 billion dollars, 50,000 lives and 2 million disabling injuries a year. We as Police Officers are the unbiased investigators obligated to discover what really happened, and if there was any crime committed. Intermediate Crash Investigation is the first in the 3 basic classes that gives the investigating Officer the skills necessary to conduct a competent collision investigation.

**Instructed by: Wes Bement  
and Lee Jackson**

*Course Topics include:*

Physical Evidence      Energy      Speed From Skid  
Scale Diagraming      Total Stopping Distance
