UAS/Drone Mapping

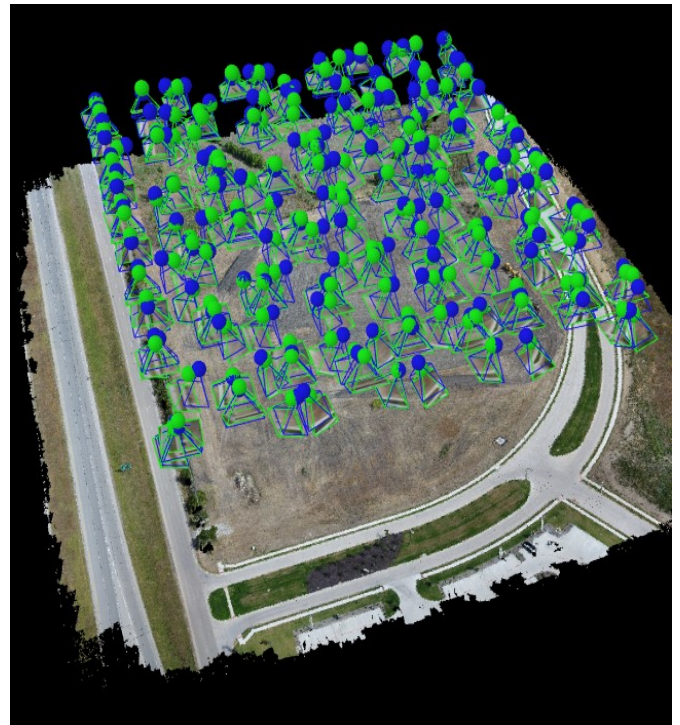

Taught by Tim Lovett & staff

Class Equipment requirements:

- **Laptop computer** equipped with a wheel mouse
- **UAS/Drones** will need to be **Dji Phantom 4, Inspire or Matrice** units
- An **iOS** device will be needed to operate the UAS/Drone software. **Apple Ipad Mini4, Ipad Air or newer or iPhone 7 or newer** can be used

This course provides **UAS/Drone operation** instruction, **UAS/Drone safety**, **scene protocols** and how to utilize **UAS/Drone mapping software**.

This course will not include any FAA part 107 material

Tuition \$ 850.00

First 10 registrations get \$150.00 DISCOUNT

Thorough documentation of **Crash and Crime scenes** is paramount to the prosecution of cases. This course will enable investigators to utilize **UAS/Drones** to create **3D Forensic Maps** for courtroom presentation.
